

UConn Name/Change Process

Approval Process for Naming Buildings and Campus Areas

- * Signage Committee reviews submitted names to check for conformity to sign standards, to prevent duplication and to establish campus map abbreviations.
- Note – Re-naming/change of use for an existing building example:
 - Asian-American Cultural Center once occupied a modular building. The Asian-American Cultural Center moved to the Student Union and a new department moved into the modular building. The modular building was then designated MB1 – a neutral name. This was a re-name and change of use for the building.
